Penobscot County Whig Convention.

THE Whigs of the several towns and plantations in the County of Penobscot are hereby requested to meet by their delegates in convention at the CITY HALL, in Bangor, on Wednesday, the first day of September next, at ten o'clock in the forenoon, for the purpose of nominating—

Three Candidates, for Senators, a Candidate for Clerk of the Courts, County Attorney, Register of Deeds, County Treasurer and two Candidates for County Commissioners.

The ratio of Representatives is, That all organized plantations are entitled to one Delegate—Towns having one thousand inhabitants and under fifteen hundred two Delegates—over one thousand and under two thousand four delegates—over two thousand and under three thousand six delegates—over three thousand and under eight thousand ten delegates—over eight thousand fifteen delegates—The census of 1850 to be taken as the basis of representation. It is desired that every town shall be fully represented.

Per order,

GEO. A. FAIRFIELD,
Secretary of Whig County Committee.

Bangor, Aug. 7, 1852.

☞ SEE FIRST PAGE. ☜

County Convention.

The whig convention will assemble at the City Hall this forenoon, for the purpose of nominating the various county officers to be chosen on the 13th inst. It is expected that there will be a full representation from the several towns in the county, as uncommon interest is felt on the subject of nominating such men as best reflect the public sentiment, and will be likely to command the popular vote, and will best aid in sustaining those measures which will promote the public peace and prosperity.

There can be no mistake as to the fact that the candidates of the loco party for the Senate do not reflect the popular sentiment of the people of this county, and the question is whether party machinery shall triumph over the will and wishes of the people. There is much due to party organization, because that organization may be promotive of the public good, and tend to concentrate and render effective public sentiment, but when it becomes inverted in its objects and perverted in its aims, and wars against humanity and the public interest, then petty organization becomes an evil, like any good that is corrupted, and, should be disregarded and overthrown. In this way alone it can be brought to the penitential seat and placed in the way of a just reform, and brought back to its legitimate purposes, objects and aims. The leaders of the loco party in this county have driven their organization to the extremity, and know, becomes the duty, and it is for the interest of the masses of that party to resort to the method we have suggested.

The whig party are to assemble to-day by delegates, and it is for them to preserve their organization from falling into the same pit. It becomes their special duty to make their organization correspond to the public sentiment, and to promote the public welfare, and to secure the highest success to correct political principles—This duty ought to be a pleasure, and in accomplishing it they ought to feel that their relation to the public makes them more than themselves, and they have more to care for than themselves, and greater objects than simply the gratification of their own personal views. As representatives of a party which has been organized for the purpose of more effectually promoting the public welfare, they should employ the power in their hands wisely and unselfishly for success, which they can do so without a sacrifice of principle and without violence to correct political feeling and just political action. In doing this they need to be earnest in learning what is the true public sentiment, that it may be faithfully and fairly and honestly reflected in their actions. In ascertaining this sentiment they need not be confined to any special oracles of politics, nor to sibboleths, either real or assumed, but seek the truth wherever it may be found, and fearlessly act upon it, even if the result should at first view, differ from what might have been expected by those who do not push their thoughts beyond first causes, and their immediate probable effects.

The times are peculiar on account of the peculiar circumstances which mould the public sentiment and influence political action. As a practical party, a progressive party, designed for the public good, the whigs are called upon to act, and we have the fullest confidence that their action will evince both their wisdom and their independence, their prudence and their right to be esteemed as the true conservators of just laws and good government.

In accomplishing this they need to bear in mind that their action is of more consequence than a mere preference for men, and that such preference should be kept subordinate to the larger interest. In short, while they should labor to be right in the abstract they must have regard to practical success.

☞ In the Lincoln Congressional District the Whigs with great harmony have put in nomination Farley, of New Castle, an active and reliable Whig, who in the Legislature of Maine, has proved himself an able and efficient legislator. Mr. Farley's election will be hailed with great pleasure by the Whigs of Maine, and his labors in Congress will confer honor upon his district and State.

The opposition forces in this district have put in nomination two candidates, one for each branch, Menasseh H. Smith for the "Wild Cats", and Iddo K. Kimball for the "Woolies." There is an apparent and positive determination on the part of these sections of the party, to support only their own candidates, in the belief that their future prospects will thereby be promoted in a greater degree than to yield anything now where they would have no credit, but rather thrown out of position and into forgetfulness, and the cold region of neglect, where the Executive arm shall never reach the party that shall succumb. This is pretty surely to cause the election of the Whig candidate, Mr. Farley.

☞ The Boston Journal of Monday, thus speaks of the money market:—"There is no especial alteration in money matters; the supply is fully adequate to the demand, and no attempts are made to raise street rates beyond 6 per cent. It is quite doubtful in our minds whether the experiment of advancing interest rates in New York can be sustained, and such opinion is expressed by many leading financiers in that city. As the current now sets capital must inevitably accumulate at the seaboard instead of flowing thither. A few weeks, however, will tell the story."

Postponement of the Festival.

On account of the long continued storm and the consequent unfitness of things for the Festival of the Mechanics' Association at Pushaw Pond, notified to take place on to-morrow, the Festival has been postponed to Thursday of next week, the 9th inst., when it is hoped that the weather and other favorable circumstances will secure a large attendance of the members of the Association, their families and friends from the public at large.

☞ The London Times, through its New York correspondent, continues its fire on Gen. Scott and his friends.

Fire away, gentlemen! Winfield Scott is not a stranger to the smell of British powder nor the shock of British balls. He did not flinch at Queenston, (though immensely outnumbered and at length overpowered,) and he met your legions unawed at Chippewa, Lundy's Lane and Fort Erie, and came off triumphant. You cannot crush him now, when his own countrymen are to award the palm of victory!

☞ The Savannah Republican says there is an unusual degree of sickness in the interior of that State. The seaboard is comparatively exempt, but in the up-country there is much fever of a typhoid type. With abundant crops in the South, says the Republican, there is sure to be a proportionate amount of sickness. The meteorological conditions which produce the most abundant harvests, are precisely those which are accompanied with extraordinary exhibitions of disease.

☞ The river at Oldtown, yesterday, had fallen a foot from the sudden rise of Saturday. It commenced raising in torrents on the head waters of the Penobscot on Tuesday, while the heaviest of the rain has been in this vicinity and at the Westward.

The fruit trees in Massachusetts have been seriously injured by the storm, and much of the crop has been stripped.

☞ Mr. W. E. Hilton, formerly employed in this office, has purchased of Mr. Pratt, the office of the People's Press, and will continue it as a substantial and reliable Whig paper. The new publisher will bring fresh force and activity to the columns of the Press, which has been well conducted for several years and earned for itself a good reputation. We wish our young friend success in his enterprise and congratulate the Whigs of Somerset on so valuable an acquisition to their numbers.

☞ The storm was severe in New York on Sunday and several buildings were blown down. The shipping was not greatly injured.

The express train on the Hudson River Railroad, running from Albany to New York, due on Saturday night, ran off the track within four miles of New York city, in consequence of the earth under the rails having been washed away by the rain. No passengers or officers were injured.

☞ We learn that the Engineers on the Penobscot and Kennebec Railroad, will commence immediately in the working survey of the road, commencing at Waterville, and that ten miles of the road will be put under contract at an early day.

☞ The meeting relative to the construction of the Milford and Lincoln Railroad, called to meet at the City Hall on Monday evening, has been postponed to next Wednesday evening, the 8th inst.

☞ The Democrat "puts it hot and heavy" on our neighbor of the Jeffersonian, and flays it alive. We think the editor of the Democrat makes himself amenable to the statute for cruelty to animals.

☞ Workmen have commenced in laying the foundation for a large and first class house for Mr. Ephraim Paulk, on the beautiful lot at the head of Stetson Square and on the corner of Broadway and Somerset street.

☞ We return our thanks to Mr. Cushing, the attentive and gentlemanly Clerk of the steamer Governor, for papers received yesterday in advance of the mail.

☞ The Belfast Journal is somewhat obfuscated in reference to the nomination of its party for Congress in this District, and inserts the names of both. It would probably recommend to its friends here to vote for both of them!

☞ The barn of Mr. Loring Jewett, in Farmington, was destroyed by fire on Tuesday morning of last week, caused by matches with which some children were playing. Loss 3 or $400.

☞ The storm is not yet over. It has extended over a large space and in Boston was accompanied by a very high wind.

☞ The weather tried to clear off yesterday noon, but didn't succeed and everything remains in a very moist state.

☞ The Massachusetts Whig State Convention is to be held to-day at Worcester.

From Washington, &c.

WASHINGTON, Aug. 29th.

It is believed that the appointment of Post Master General has been offered to Hon. James F. Simmons, formerly Senator from Rhode Island.

An amendment to the Navy Appropriation bill will be offered to-morrow, appropriating $100,000 to the discovery of Ether, to be determined by a Scientific Board appointed by the President.

The resolution with regard to the Tehuantepec grant will be offered in executive session on Monday. An attempt will be made to take up the French Spoliation bill, but with faint prospects of success.

Mr. Bennett's land bill came within one vote of being taken up in the Senate last night, although several of its friends voted against it because the appropriation bills were not disposed of. The motion will be renewed to-morrow. It can be got up there is no doubt of its passage.

The settlement of the Claims of the Texas Creditors, as recommended by the Senate Committee, has been postponed till next session. It is understood that the Committee of Conference on the Civil and Diplomatic bill will to-morrow report to the House in favor of concurring in the Senate's amendment.

Judge N. K. Hall and several others nominated for offices by the President, were in the Senate Chamber last night, in hopes of an Executive session. With the exception of P. M. General, there are no important nomputations to be acted upon.

Important Papers Communicated to Congress.

WASHINGTON, August 28.

The President yesterday sent to the Senate the following, among other important papers: Capt. Jewett's letter to Mr. Webster, setting forth our claim to the Lobos Islands, and the value of the guano there; Mr. Webster's reply; the Secretary of the Navy's instructions to Commodore McAuley to protect American vessels visiting those Islands; the more recent instructions of the Government, countermanding these orders while negotiations are pending; the Peruvian Minister's argument claiming the Lobos Islands upon the ground of discovery, occupancy, survey, &c. These claims being denied by our Government, instructions have been sent to the American Minister at Peru to investigate the claims which the Peruvian Government have set up.

Dreadful Mortality.

The Brig Sarah, of Prospect, Me., L. S. Griffin, master, arrived at Surinam on the 28th ult. from Demerara, the captain, both mates and one man sick, with the yellow fever, having been attacked on the passage up, and on the 30th the whole four died, within a short time of each other, and were buried at the quarantine ground. On the 4th inst. there was but one man sick, and he was recovering. There were several passengers on board, among whom were three ladies, one in a very delicate situation. It was expected that the vessel would be relieved from quarantine shortly, when, probably, the U. S. Consul would take charge of her. It will be gratifying to the friends of the deceased to learn that everything was done by the authorities after their arrival, that could be done to make them comfortable.—Salem Register.

SAVANNAH, Aug. 27.

The Macon Journal has hoisted the Webster flag.

The same paper states that Ellen Craft, the fugitive slave, is now in London, having enter-the service of an American gentleman on the condition that he shall restore her to her owner.

Dr. Collins, in Macon.

The rice harvest has commenced along the Savannah river, with prospects of a good crop.

An earthquake occurred at Augusta on Wednesday, which lasted for six seconds. The people were much frightened. No serious damage was done.

TELEGRAPHIC.

TO THE DAILY WHIG AND COURIER.

NEW YORK, Aug. 31.

The Ohio has arrived bringing the C. States Mails.

Later From Europe.

HALIFAX, TELEGRAPH OFFICE, Aug. 31, 6 o'clock P. M.

The Steamer America has just arrived, bringing one hundred and fifty passengers.

☞ The wreck of the Atlantic has been found. It was about eight miles from land, in 180 feet water. No additional bodies have been found. The safe and money of the Express Company will be recovered.

There is considerable cholera in Buffalo.

☞ We have accounts from the storm at Mobile. It was very destructive there and property to the amount of one million and a half of dollars has been destroyed.

☞ Mr. Daggett from the State of Maine is reported as having been shot by an Irishman in Shasta County, California.

BALTIMORE, Aug. 28.

We learn that the recent heavy rains near Charlottesville, Va., have almost entirely destroyed the Tobacco crop, and caused great damage to other growing crops in that region.

PHILADELPHIA, Aug. 29.

The works of the House of Refuge were entirely destroyed by fire this morning. The fire was supposed to have originated by accident.

The firemen during last night had several collisions. The Independence Hose carriage was battered, but none of the firemen were seriously injured.

CONGRESS.

WASHINGTON, August 28.

In the Senate. Further message was received from the President, on the subject of the Lobos Islands.—[Not finished.]

In the House. Mr. Hart asked the unanimous consent of the House to permit his colleague (Mr. Brooks) to report from the Committee of Ways and Means a bill to establish a branch mint in New York.

Mr. Chandler objected.

Mr. Hart moved a suspension of the rules. The Speaker said this motion was excluded by the rule under which they were acting.

Mr. Penn, from the Committee on Post offices and Post routes, reported a bill for the relief of the Memphis and Charleston, the Tennessee, Mississippi and Alabama river, the Coosa, New Orleans and Jackson, and the New Orleans and Opelousas, and Great Western Railroad Companies. He said the bill was similar in its provisions to that for the relief of the Wilmington Railroad Company, recently passed—merely proposing to extend for four years the time for payment of duties on railroad iron—companies to pay six per cent.

After some opposition, the House took up the Civil and Barbor Bill, and concurred in all the Senate's amendments—upwards of forty.

Mr. Johnson of Tennessee, from the Committee on Gardner's Claim, and Secretary Corwin's connection therewith, reported inability to do anything in the matter this session, and asked leave to sit during the recess.

Two letters were received from Mr. Corwin, requesting immediate investigation, which were debated, and the subject was laid over.

The Civil and Diplomatic Appropriation bill, as returned from the Senate, was taken up.

Triennial Festival

—OF THE—

Bangor Mechanic Association

Sept. 9, 1852.

The eighth Triennial Festival of the Bangor Mechanic Association will be held at Pushaw Pond on THURSDAY September 9, 1852.

There will be the usual religious exercises, and an address will be delivered by John B. Sayward, Esq. The services will commence at eleven o'clock A. M. A dinner will be provided for members of the Association and their families and guests.

Arrangements have been made with Messrs. Wm. Arms, Charles O. Ricord and Smith & Perry for conveying passengers to Pushaw and back, at fifty-eight cents each, and those who wish this mode of conveyance, will book their names, and the passengers will be called for at their dwellings.

Tickets for the dinner $1.25 each, and may be obtained at the counting rooms of P. R. Mills, P. H. Fox, J. Muzzy & Co., or of either of the members of the Government.

For order,

LEONARD W. ROGERS, Sec'y.

Bangor, Aug. 24th, 1852.

BANGOR AIR-TIGHT
COOKING STOVE!

THIS best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for the eastern market, by those experienced and expert Stove manufacturers, Messrs. Prentiss & Whittier, who know, and have appreciated the wants of this ingenious people. I now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth castings, and being manufactured in the city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be returned from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one to give entire satisfaction may be returned and the money will be refunded after 10 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the Our State, Bay State, Empire State, Granite State, State of Maine, &c., All many of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden 3 and 5 Boiler, and two Ovens—Boston two oven Stoves, Forrest Queen, &c—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot.

CULVER'S COAL FURNACE

Is acknowledged to be the very best Furnace for Coal ever introduced.

PROUTY & MEAR'S
WOOD FURNACE!

Manufactured entirely of Cast Iron is the most durable and economical Wood Furnace to be had.

—ALSO—

Lombard's Kennebec Wood Furnace, of which I let the past season 10 or 12 and they have all given entire satisfaction. From six to eight cords of dry hard wood is sufficient to warm any ordinary sized dwelling house.

Any of the above Furnaces set in the best and most approved manner at short notice.

Well and Cistern Pumps of all the desirable patterns and Sizes. Lead Pipe, Sheet Lead, Sheet Zinc, &c., &c.

New York and San Francisco STEAMSHIP LINE.

THE NEW STEAMSHIP,

UNITED STATES,

WM. C. BERRY, Commander. 1500 Tons burthen, will take her departure from New York for Aspinwall, Navy Bay, on WEDNESDAY, September 1st, at 3 P. M., connecting at Panama with the new double engine steamship WINFIELD SCOTT, 2100 tons burthen, Captain GEORGE A. COLE, which steamer awaits the arrival of passengers at Panama by the United States, from New York, and immediately the passengers proceed to San Francisco direct, without stopping at any intermediate ports.

These vessels in accommodations and safety are not surpassed by any on this route; and an experienced surgeon is attached to each vessel.

Books are now open and through tickets for sale.

Apply to

DAVIS, BROOKS & CO.,
General Agents, 28 Beaver st. New York.
Or to JONES & JOHNSTON, 103 Westst.
Corner of Liberty st.

☞Passengers by the United States will disembark along side the wharf at Aspinwall, and take the Panama Railroad, now opened nearly to Gorgona—thus avoiding the risk attendant upon landing in boats at Chagres, and the river navigation to Gorgona.

The United States will leave New York again on Thursday, the 23d September, to connect at Panama with the fine new double engine steamship CORTES.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *where by a Patent may be secured about six weeks, he* would invite inventors to forward them free of expense—to prepare Caveats, Specifications, Assignments and all the necessary Papers and Drawings for Patents, on reasonable advice on usual and reasonable terms, securing the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *everybody* explaining their intentions and consulting in respect to them; *matters in general of importance unobtainable in Washington* or *correct specifications and claims.* The experience of *sixteen* year's practice, an extensive collection of rare works, Cuts and Models on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts, here kept of inventions patented at Washington, enable the subscriber to afford inventors a bureau of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I have occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

Bigelow's Alterative.

A CERTAIN cure for DYSENTERY, DIARRHŒA, CHOLERA MORBUS, and all Summer Complaints. GEORGE W. BEECHER, Proprietor, 293 Broadway, New York.

For children who are Teething, and Cholera Infantum, this medicine stands unrivalled. It may be used with perfect safety both by old and young, and when faithfully administered it has never been known in any case to fail of a speedy cure. Unlike other medicines, it corrects the bowels, and often in a few hours the patient is restored to his accustomed vigor and health.

We append the following testimonials:

I have used "Bigelow's Alterative" in my family, and have never found it to fail, when all other remedies administered by and under direction of Physicians have proved ineffectual. I think it a perfect corrective for Dysentery and all Bowel complaints.

Geo. W. Brewer, 57 Walker st.

New York, March 22d, 1852.

We can add our testimony to that of others of the great efficacy in our own case, when prostrated to an alarming degree by Bowel disease. It was the only medicine that gave relief, and one we always kept in the family.

Editor of the N. Y. Baptist Register.

Utica, April 5th, 1852.

"Bigelow's Alterative" advertised in another column of our paper is probably the best cure for Dysentery, Diarrhœa, &c., &c., that has ever yet appeared. We seldom make a point of extolling patent medicines, and for the very good reason that most of them are entirely undeserving of praise; but we have it on such indubitable and respectable authority, that the above "Alterative" is all, and more than all it professes to be, that we cannot do less than make mention of it in this way to our readers. All that we ask is the most incredulous in such matters to read the *Certificates* embodied in the advertisement, and then, judging from the high standing of the parties (who are thus ready, promptly and publicly to certify), candidly ask yourselves whether a remedy so endorsed, is worthy of attention or otherwise. We have more to say of this remarkable preparation.

ISLAND HOUSE
MOUNT DESERT.

A Fine, Cool, Summer Resort.

THE subscriber continues in operation the large and beautiful Island House at South West Harbor, Mount Desert for the accommodation of travellers, parties of pleasure, families and permanent boarders. The hotel is large and commodious. It fronts the harbor and is near the sound of old ocean, and dashes against the rock-ribbed shore. It is in the vicinity of mountain peaks and unusual great variety of natural beauties.

In the vicinity are some of the most beautiful ridges in this State, and also numerous fishing grounds. The treasures and the pleasures of land and lake, of mountain and valley, all combine to make this one of the most popular summer retreats in Maine. Boats and Carriages constantly kept for the accommodation of guests.

The best books are in attendance, and every attention will be paid to the comfort of visitors.

The House is near a Telegraph Office and there is a Post Office in the vicinity with various means of communication by land and water.
